About Hoag Memorial Hospital Presbyterian

Hoag has stood for excellence in medical services for more than 60 years

For more than 60 years, Hoag Memorial Hospital Presbyterian has delivered a level of personalized care that is unsurpassed among Orange County’s health care providers. Since 1952, Hoag has served the local communities and continues its mission to provide the highest quality health care services through the core strategies of quality and service, people, physician partnerships, strategic growth, financial stewardship, community benefit and philanthropy.

Hoag is a nonprofit regional health care delivery network in Orange County, California, consisting of two acute-care hospitals, eight urgent care centers, six health centers and a network of more than 1,500 physicians, 4,600 employees and 2,000 volunteers. More than 25,000 inpatients and 369,000 outpatients choose Hoag each year.

Hoag is fully accredited by DNV and has ISO 9001 certification. Additionally, Hoag is designated a Magnet® hospital by the American Nurses Credentialing Center’s (ANCC) Magnet Recognition Program. This credentialing program for hospitals recognizes excellence in nursing and is the highest honor an organization can receive for professional nursing practices. Hoag offers a comprehensive blend of health care services that include five institutes providing specialized services in the following areas: cancer, heart and vascular, neurosciences, women’s health and orthopedics through Hoag’s affiliate Hoag Orthopedic Institute.

Becker’s Hospital Review named Hoag one of the 2015 “100 Great Hospitals in America.” Hoag has received this designation three times – in 2012, 2013 and 2015. Hoag is the only hospital in Orange County to make the list. Additionally, out of the nine California hospitals recognized, Hoag is the only non-academic medical center. Hoag has been named one of the Best Regional Hospitals in the *2015-2016 U.S. News & World Report Metro Edition*. The organization was ranked high-performing in Gastroenterology and GI Surgery, Geriatrics and Gynecology. National Research Corporation has endorsed Hoag as Orange County’s most preferred hospital for the past 19 consecutive years, and for an unprecedented 19 years, residents of Orange County have chosen Hoag as one of the county’s best hospital in a local newspaper survey.

Services

Hoag provides a full spectrum of health care services

Hoag provides a variety of health care services to treat virtually any routine or complex medical condition. Through its more than 1,500-member medical staff, state-of-the-art equipment and modern facilities, Hoag provides a full spectrum of health care services including, but not limited to:

- Cardiology and cardiovascular surgery
- Chemical dependency
- Comprehensive cancer services
- Critical care
- General acute medical and surgical services
- Neurological and neurosurgical services
- Orthopedics and joint replacement
- Radiology (e.g., MRI, CT and PET)
- Robotics
- Specialty programs such as sleep disorders and epilepsy
- Women’s health
- Diabetes education and treatment
- And many other scientific and technical services needed to treat patients

Over 270 patients are treated in the emergency department each day

The emergency room also plays a key role, as many of the hospital’s inpatients come through the emergency department. Hoag’s emergency efforts are supported by life-flight helicopter services and a paramedic radio base station. In 2014, there were 102,015 emergency department visits, meaning the emergency department staff treats approximately 279 patients each day.

Patty & George Hoag Cancer Center at Hoag Hospital Newport Beach

Patty & George Hoag Cancer Center lobby at Hoag Hospital Newport Beach

Hoag Family Cancer Institute

Hoag Family Cancer Institute is firmly planted on the leading edge of cancer treatment and offers patients a full range of advanced cancer therapies, as well as access to new investigational treatments.

Hoag Family Cancer Institute provides:

- Biotherapy and immunotherapy
- Chemotherapy
- Clinical trials
- Comprehensive support services and education for patients and families
- CyberKnife
- Dedicated clinical nurse navigators
- Dedicated registered dietitian team
- Gamma Knife Perfexion®
- Hereditary cancer counseling and screening
- High-dose rate brachytherapy (HDR)
- Intensity-modulated radiation therapy (IMRT)
- Physical rehabilitation
- Radiation therapy
- Robotic surgery
- Superficial radiation therapy
- Tomotherapy®
- Vaccine therapy
- Video-assisted thoracic surgery (VATS) for lung cancer

Hoag Family Cancer Institute is the largest cancer program in Southern California outside of Los Angeles County, and is Orange County's leading provider of radiation therapy and cancer care, treating more than 3,300 new patients annually. Recently, Hoag Family Cancer Institute formed an alliance with USC Norris Comprehensive Cancer Center to expand cancer care for Orange County Residents.

Hoag Family Cancer Institute was named one of the "100 Hospitals and Health Systems With Great Oncology Programs" by *Becker's Hospital Review* in 2014, the only oncology program in Orange County to receive this designation.

The Jeffrey M. Carlton Heart and Vascular Institute at Hoag Hospital Newport Beach

The cardiac catheterization lab at Hoag Hospital Newport Beach

Jeffrey M. Carlton Heart and Vascular Institute

The Jeffrey M. Carlton Heart and Vascular Institute is one of the preeminent cardiovascular centers on the West Coast, and is well respected for delivering quality care and exceptional patient outcomes.

The Carlton Heart and Vascular Institute specialties include:

- Arrhythmia center
- Cardiac catheterization lab
- Cardiac rehabilitation and cardiovascular surgery
- Clinical trials & research
- Diagnostic & interventional cardiology
- Electrophysiology services
- Emergency treatment
- Endovascular diagnosis and therapy
- Endovascular lab
- Nancy & Bill Thompson Heart Valve Center
- Patient & community education
- Vascular surgery and vascular lab

The Carlton Heart and Vascular Institute has achieved international and national accreditation for many of its programs. The Society of Thoracic Surgeons placed Hoag in the highest category for quality cardiac surgery, a rating achieved by only 10 percent of hospitals nationwide. Among the top in the nation and exclusive to Hoag is the cardiac surgery team, comprised of Aidan Raney, M.D., program director of cardiac surgery, Colin Joyo, M.D., Anthony Caffarelli, M.D., and Daryl Pearlstein, M.D. Their sole commitment to Hoag benefits patients by providing 24-hour availability and active participation in the patient's case from the time of admission through recovery. Hoag's physicians perform more surgeries and procedures with better outcomes than any other hospital in the county.

Additionally, the Carlton Heart & Vascular Institute partners with many highly skilled cardiologists and electrophysiologists to provide expert care for those with heart disease. This team follows best practices and utilizes advanced technology such as the Sandy & Allan Fainbarg Electrophysiology Catheterization Lab Suite, to provide the finest cardiac care to the community.

Hoag Neurosciences Institute

As the most comprehensive neurosciences program in Orange County, Hoag Neurosciences Institute offers significant expertise in many neurologic specialties. Several of the programs have received high acclaim, including Hoag's stroke program, which ranks among the top five percent in the nation.

Incorporating the latest diagnostic technologies, treatment modalities and integration of medical specialists, Hoag Neurosciences Institute delivers the highest quality care for all complex brain and spine neurological disorders.

Hoag Neurosciences Institute specializes in:

- Addiction
- Alzheimer's disease/Dementia
- Back and neck pain
- Brain tumors
- Brain aneurysms/vascular malformations
- Epilepsy
- Headache
- Memory and cognitive disorders
- Movement disorders/Parkinson's disease
- Multiple sclerosis
- Neurobehavioral disorders
- Pain and sensory disturbances
- Sleep disorders
- Spinal tumors
- Stroke

And offers the following services:

- Deep brain stimulators
- Epilepsy monitoring
- Gamma Knife
- Interventional neuroradiology
- Mental Health
- Neurobehavioral medicine
- Neurodiagnostic lab
- Neuro hospitalists
- Neurology
- Neuropathology
- Neuropsychology
- Neuro radiation oncology
- Neuroradiology
- Neuro rehabilitation
- Neurosurgery
- Pain medicine
- Sleep lab
- Spine neurosurgery

Hoag's brain tumor program is the largest in Orange County, and is among the top volume programs in the western United States. Hoag is one of the first centers in the U.S. to offer the most advanced radiosurgical treatment system available, Leksell Gamma Knife® Perfexion™.

Spearheading these neuroscience programs is Hoag's multidisciplinary team of nationally recognized medical experts, who subspecialize in the fields of neurology, neurosurgery, neuroradiology, neurovascular diagnosis and intervention, Gamma Knife, epilepsy, pain medicine, neuro radiation oncology and neuropsychology. This integrated, subspecialized team of neuroscientists is actively involved in clinical research testing new therapies, drugs and other medical advancements to better the lives of patients suffering from neurological conditions.

Hoag Women's Health Institute

Hoag Women's Health Institute, located in the seven-story Sue and Bill Gross Women's Pavilion, improves the lives of the women it serves with personalized, integrated care through prevention, wellness and treatment.

Hoag Women's Health Institute offers a comprehensive array of programs, including:

- Comprehensive breast care services for screening, diagnosing and treating breast cancer
- Hoag Early Risk Assessment (HERA) Program
- Pelvic Health and Rehab through our partner WOMANOLOGY®
- Minimally invasive gynecologic surgery, including robotic-assisted
- Gynecology
- Gynecologic oncology and urogynecology
- Obstetric services and neonatal intensive care
- Pregnancy & prepared childbirth education

Recognizing the special health care needs of women throughout their lives, the Women's Health Institute delivers care to women of all ages and life stages. Through collaboration with other Hoag institutes and centers, the Women's Health Institute provides coordinated specialized care for women across the continuum. The Women's Health Institute offers nationally recognized programs in the areas of breast health, gynecological health and maternal child health including a Certified Quality Breast Center of Excellence and Center of Excellence in Minimally Invasive Gynecology (COEMIG™) .

Hoag Orthopedic Institute

Hoag Orthopedic Institute

Hoag Orthopedic Institute (HOI) is located in Orange County, California. It consists of a 70-bed hospital located in Irvine and two ambulatory surgery centers: Orthopedic Surgery Center of Orange County in Newport Beach and Main Street Specialty Surgery Center in Orange. HOI has more than 300 physicians on staff, including over 80 orthopedic specialists. Achievements in patient safety and satisfaction, and growth initiatives have propelled HOI to become the highest volume provider of joint replacements in California. The physicians collaborate on more than 10,000 orthopedic procedures annually. HOI ranks in the 98th percentile for willingness to recommend the hospital and in the 97th percentile for overall hospital rating, according to the Hospital Consumer Assessment of Healthcare Providers and Systems (HCAHPS). HOI focuses on the treatments of the knee, hip and spine disorders, and takes pride in specialty care related to sports medicine, orthopedic trauma and extremities care. Since opening in 2010, HOI's hospital has been named by *U.S. News & World Report* and *Becker's Orthopedic, Spine & Pain Management Review* as one of the top orthopedic hospitals in the nation. For more information, visit www.orthopedichospital.com.

Centers

Hoag Breast Center

Designated as a Certified Quality Breast Center of Excellence™ by the National Consortium of Breast Centers, Hoag Breast Center remains committed to providing Orange County women with the highest quality breast services in a comfortable, patient-friendly environment. Choosing a certified breast center assures women a higher level of quality and expertise.

With state-of-the-art technology and expert sub-specialized radiologists, 40,000 mammograms a year are performed at Hoag, making it the largest volume breast center in Southern California, and one of the largest in the state in terms of volume with over 700 breast cancer cases diagnosed and treated annually. Hoag Breast Center provides the latest in screening and diagnosing breast cancer including: direct-to-digital mammography, dedicated breast MRI, breast ultrasound and minimally invasive breast biopsy. Hoag Breast Center remains a pioneer in advanced breast treatment techniques through its breast fellowship program including state-of-the-art oncoplastic surgery and intraoperative radiation therapy (IORT).

Hoag Breast Center was the first breast center in California to provide state-of-the-art Breast Tomosynthesis (3D Mammography) as part of its comprehensive breast imaging services, due to a generous donation from Circle 1000, a Hoag donor group. Hoag has extended this service to all satellite imaging facilities and is a leader in Tomosynthesis. In 2009, the Breast Center was selected as one of only 11 initial beta sites in the nation designated to participate in the clinical trial, which ultimately resulted in FDA approval of the technology in February 2011.

Mary & Dick Allen Diabetes Center

The mission of the Mary & Dick Allen Diabetes Center at Hoag Hospital is to make a difference in the lives of people with diabetes or at risk of diabetes, through prevention, early detection, prompt care, education and support.

The Allen Diabetes Center provides comprehensive services for both adults and children with diabetes and offers clinical, educational and support services designed to meet the needs of patients with diabetes and their families. Specialty programs include medical nutrition therapy, ADA accredited diabetes self-management education, Herbert Family Program for young adults with type 1 diabetes and "Sweet Success" for pregnant women with diabetes.

Community Benefit Program

Hoag is a major partner with Share Our Selves (SOS)

Through Hoag's Community Benefit program, Hoag sustains the steadfast community service values that have been so vital to its growth and success. As an integral partner with more than 70 local community organizations, Hoag reaches out to its neighbors and helps ensure proper health care for those who are truly in need. These collaborations are targeted at improving the community's overall health primarily through disease prevention and health promotion. Additional alliances are continually being developed to enhance and coordinate available wellness services in the community, especially those for vulnerable and disadvantaged populations.

Hoag's Community Benefit program involves partnerships with organizations from four priority health areas:

1. Access to health care for vulnerable populations
2. Health education and prevention
3. Nutrition, physical activity and weight management
4. Health professional education programs

The Department of Community Health at Hoag spearheads the hospital's efforts in the community, providing several flourishing outreach programs: Hoag Health Ministries, Hoag Mental Health Center, Project Wipeout (beach and sun safety program), and the Freedom from Smoking Program. These programs are coordinated and administered by Hoag clinical and support staff and are wide-reaching in their impact.

Leading Hoag's community health initiatives is Gwyn Parry, M.D., a 30-year veteran physician of Hoag, who serves as director for the department of Community Health. His role is to create or refine ways for Hoag, the medical staff, employees and support groups to continue the legacy of community benefit that speaks to Hoag's mission.

Hoag Urgent Care Centers

Since 2011, Hoag has opened urgent care centers to expand its outpatient services to Orange County communities and provide prompt care for all age groups in a convenient location for families.

President & CEO

Robert T. Braithwaite serves as president and chief executive officer of Hoag Memorial Hospital Presbyterian. Robert is responsible for all aspects of hospital operations and quality of care, and directs a sizeable executive leadership team and more than 4,600 employees. From 2009 until his appointment as president and CEO in 2013, Mr. Braithwaite served as chief operating officer of Hoag's entire health care network, including both hospital campuses. He also held the role of chief administrative officer of Hoag Hospital Irvine which opened in 2010, and piloted the process of developing, building, staffing and licensing both Hoag Hospital Irvine as well as Hoag Orthopedic Institute. Mr. Braithwaite joined Hoag in 1992 as administrative resident and throughout his tenure, from 1992 to 1996 and from 1999 to present day, has served in key management positions for Hoag's network of hospitals and urgent care centers.

History

Hoag's groundbreaking ceremony in September 1951

The idea to build a hospital for coastal Orange County originated in 1944, when Rev. Raymond Brahams, seven Presbyterian church members and one physician formed a corporation called the Presbyterian Hospital of Laguna Beach. They began a fundraising campaign in the local community and then changed the name to the Presbyterian Hospital of Orange County after securing a site on the bluffs in Newport Beach. Unable to keep pace with rising construction costs following World War II, they looked for additional sources of funds.

In 1950, the Hoag Family Foundation, established 10 years earlier by George Hoag Sr. (an early partner in the J.C. Penney Company), his wife Grace Hoag and their son George Hoag II, learned of the hospital project and contributed sufficient funds to begin construction. With their support and that of the community, the hospital was completed in just two years and renamed Hoag Memorial Hospital Presbyterian.

The George Hoag Family Foundation is still actively involved with the hospital. Along with the Association of Presbyterian Members, they represent the two founding organizations of the hospital and continue to provide leadership as the Corporate Members of the hospital corporation. In addition to annually electing Hoag's board of directors, they provide representation on the board, together with members of the community-at-large and the hospital's medical staff.

Major Milestones

2015

- Hoag Addiction Treatment Centers (HATC) expanded its comprehensive treatment options to offer SolMar Recovery, a world-class residential rehabilitation facility.
- Hoag was ranked by the *U.S. News and World Report*, as eleventh in the Los Angeles metro area and was ranked high-performing in a variety of areas including: Gastroenterology & GI Surgery, Geriatrics and Gynecology.
